WORK EXPERIENCE

May 2023 Upto Date: Freelancer Services. Taking on online assignment jobs for programming.

- Completing programming assignments and projects for clients, utilizing languages such as Java, Python, and C++, as well as web development technologies like HTML, CSS, and JavaScript.
- Managing computing projects, including website development, database design, and application development. Collaborating with clients to gather requirements, create project plans, allocate resources, and ensure timely delivery of high-quality projects.

May 2022-Jul 2022: Industrial attachment; Kericho Township Technical College.

- Lab technician/IT specialist and trainer, actively engaged in group discussions and collaboration with colleagues and trainees.
- Provided technical support and guidance, particularly in the area of database management.
- Assisted in designing, implementing, and maintaining databases to meet organizational needs.
- Ensured data security through regular backups and implementation of appropriate measures.
- Optimized database performance through query optimization and index management.
- Conducted training sessions on database management principles and SQL querying.
- Proficient in database technologies such as MySQL, Microsoft SQL Server, or Oracle Database.
- Contributed to the creation of database schemas, tables, and stored procedures.
- Stayed updated with advancements in database management and applied industry best practices.

Dec 2021 - Jan 2022: Viewpoint Hotel. Customer attendance services.

Providing customer attendance services, including greeting guests, assisting with inquiries, and ensuring a positive experience for all customers.

May 2021 - Aug 2021: University of Kabianga Industrial Training.

Acquired skills in computer networking, troubleshooting computers, installing software, and maintaining hardware. Assisted with network configuration and supporting IT infrastructure.

Mar 2020 - Dec 2020: Freelancer Services.

Providing online services, including:

- Graphic Designing: Creating visually appealing designs for various digital and print media, such as logos, banners, flyers, and social media graphics.

- **Web Design & Development:** Developing and designing websites, ensuring functionality, responsiveness, and user-friendly interfaces. Utilizing HTML, CSS, JavaScript, and other web development technologies.
- **Internet Services:** Assisting clients with internet-related tasks, such as domain registration, website hosting, and email setup.
- **Computer Troubleshooting & Maintenance:** Offering technical support for computer-related issues, diagnosing and resolving hardware and software problems, performing system maintenance, and optimizing computer performance.

Feb 2019 - Sep 2019: Brovason High School.

Teaching and assisting as a computer lab assistant, providing guidance to students in computer-related subjects and maintaining the computer lab's functionality.
